Returned to State Reform School. Returned to State Reform School.

An interesting story in the police circles came to light Tuesday afternoon when State Agent Perish came to this city. Sometime ago a young man named Grant was sent to the reform school from this city for a few petty thefts. He was later given his freedom on parole and he came to this vicinity where he again started in on his old tricks. Before he could be brought to trial for his misbehavior he skipped out. Shortly afterwards Chief Richmond received a communication from the authorities of Meriden that the man was wanted in that city for taking a horse without percity for taking a horse without per-mission. The Meriden police have been unable to locate him but when the state agent was asked what he knew about the man he stated that the young man had returned to the Meriden reform school and was now

> DEEP WELLS AND THE SEA. Water Rises and Falls With Ebb and Flow of Tide.

In their investigation of the under ground water resources of the coastal plain of Virginia, the geologists of the United States geological survey have collected data relating to many hundreds of artesian well that yield excellent waters. The variation in flow exhibited by these wells with the risc and fall of the tide, is of peculiar interests, the flow being notably greater at flood than at ebb tide. It is the general opinion among well-drillers that practically all flowing wells near tidal rivers or inlets from open bays do feel the distant sea, but some of them so slightly that the clothing will be sent at Christmas ime. Mr. and Mrs. Dierberger have two small children and the letter convariation in flow is not noticeable.

The geologist in charge of the ground-water investigations in Virginia states that changes in water level in wells, due to fluctuations in the height of the surface of some telghboring body of water, have been observed all over the world. It is sustomary to explain these changes Shower For Miss Irene Lynch.
